Case Study

“David” (53) wants to retire at the age of 60. He works in the Wholesale industry. His sale price expectations are \$1.5million. The issues he faces:

- Retaining and motivating staff
- The business is principal reliant
- The business systems could be improved
- Thinking of selling, but not sure what the business is worth
- Would like to have a good standard of living at retirement

Find out how David grew his profit to achieve his desired sale price within 3 years.

Attend a **powerful 1 hour** information session showcasing:

- How to value your business
- How your business value affects your future
- What is required to maximise your business wealth
- Strategies to grow and realise your business value

Amazing New Valuation Technology

Business Value Gap Calculator

Determines the **gap** between what a business is worth today and what it needs to be at time of sale.

Business Capitalisation Rate Calculator

Determines the **profit multiple** when valuing a business and determines an accurate value of a business.

Contact us for more information or if you would like to register for a session.
