## Does your succession plan include selling part of the business to family or staff?

If so, have you:

- Aligned expectations?
- Reached consensus for the business's future direction?
- Agreed the value of the business?
- Determined if your successor/s can afford to buy?
- Documented roles, responsibilities and rewards?

As you can see there is a lot to consider if you want a smooth transition into business ownership or want to step back from the business and start transitioning your business wealth into money.

Attend this **powerful 1 hour** information session to discover how to:

- Start planning your succession
- Implement an incentive program to reward staff
- Value your business
- Structure funding arrangements so successors can "self-fund" their investment
- Take away the worry of selling by securing a future buyer

## Peace of mind!

Business transition is a structured process for business owners to sell part or all of the business. Achieve peace of mind from knowing you are on the right track in "*passing the baton*" onto your future owners.

Contact us for more information or if you would like to register for a session.
